

# Alliance IRIS

## Chemiluminescence & Epi Fluorescence Imaging System

**9.2 megapixels** massive resolution, HD pictures

**f/0.75 custom lens** unrivalled camera sensitivity

**3 stage Peltier Cooling** absolute -30°C

**OD 4.8 dynamic range** outstanding weak/strong detection ratio

**65,535 gray levels** research level protein quantification

**I** • Innovative  
Revolutionary UV-LED Pad

**I** • Intelligent  
First A.I. based band detection concept

**R** • Reliable  
Unprecedented ChromaScan® technology

**S** • Sensitive  
Wider lens aperture for unmatched sensitivity
